

1. Shieh KR, ***Yang SC**: Formosan wood mice (*Apodemus semotus*) exhibit more exploratory behaviors and central dopaminergic activities than C57BL/6 mice in the open field test *Chinese Journal of Physiology*. 2020 Feb. 7; 63(1): 27-34. (SCIE; Category: Physiology; Ranking: 73/81= 90%; 2018 IF: 1.108)
2. Shieh KR, ***Yang SC**: Exploratory and agile behaviors with central dopaminergic activities in open field tests in Formosan wood mice (*Apodemus semotus*). *Journal of Experimental Biology* 2019 Sep. 18; 222 (Pt 18). pii: jeb199356 (SCIE; Category: BIOLOGY - SCIE; Ranking: 19/87 = 21%; 2018 IF: 3.017)
3. Shieh KR, ***Yang SC**: Corticosterone level and central dopaminergic activity involved in agile and exploratory behaviours in formosan wood mice (*Apodemus semotus*). *Journal of Comparative Physiology A: Neuroethology, Sensory, Neural, and Behavioral Physiology* 2018 Jun; 204(6): 549-559. (SCIE; Category: Zoology; Ranking: 36/170 = 21%; 2018 IF: 1.822)
4. Shieh KR, Chen RJ, ***Yang SC**: Circadian patterns of rats in their home cages detected using a video tracking system. *Chinese Journal of Physiology*. 2017 Dec. 15; 60(6): 313-319 (SCIE; Category: Physiology; Ranking: 73/81= 90%; 2018 IF: 1.108)
5. **SC Yang**^{co}, CL Chen^{co}, CH Yi , TT Liu, *KR Shieh: Changes in Gene Expression Patterns of Circadian-Clock, Transient Receptor Potential Vanilloid-1 and Nerve Growth Factor in Inflamed Human Esophagus. *Scientific Reports* 2015 Sep 4; 5: 13602. (^{co}These Authors contributed equally to this work)(SCIE; Category: Multidisciplinary Sciences; Ranking: 15/69=21%; 2018 IF: 4.011)
6. **Tseng HL**^{co}, **Yang SC**^{co}, **Yang SH**, ***Shieh KR**: Hepatic circadian-clock system altered by insulin resistance, diabetes and insulin sensitizer in mice. *PLoS One* 2015 Mar 23; 10(3): e0120380. (**Tseng HL** and **Yang SC** contributed equally to this work as the co-first author)(SCIE; Category: Multidisciplinary Sciences; Ranking: 24/69=34%; 2018 IF: 2.776)
